Nicole Snow : Marry Me Again: A Billionaire Second Chance Romance before purchasing it in order to gage whether or not it would be worth my time, and all praised Marry Me Again: A Billionaire Second Chance Romance:

7 of 7 people found the following review helpful. Five stars not enough. Lies and secrets come out. But love always winsBy DixiebearOnce this story starts to unfold I couldn't stop reading. Ryan and Kara tell their story of LOVE that is eternal. Its not just hot demanding steamy sex, its LOVE. I cried, laughed and squirmed. Young teenagers fall in love. Ryan having to live in the foster system and taken in my Lara's family. He smart, good looking and her dream. Kara is the pride of her father and smart, witty and Ryan's only love. This couple go thru so many trials and hard times showing that love does conquer all.1 of 1 people found the following review helpful. Great storyBy LadyVikiOK, this book was amazing until it got to the sex scenes and about 3-4 chapters til the end. They're ok sex scenes but, sentences like SHE not he, SHE was squirting cum all over the bed and the sex scenes were just to much. Yuck! And when the plot was ending, it just got plain silly, like this author didn't really know how to write the ending of the plot. I hate saying all the negatives, but this is my opinion. But I can't give his book under 4 stars because it really was amazing over half the book. And I will def buy more of Nicole Snows books.3 of 3 people found the following review helpful. Pretty good!By WhitneyIt's a juicy book and I enjoyed it. A few grammatical problems, but not enough to really annoy anyone. Story lines are good, I wish they were a little longer, I would've liked to hear more about outside the bedroom a bit more!

HE CAN BUY ANYTHING EXCEPT A SECOND CHANCE WITH ME...KARAOnce, when I was young and stupid, I had that boy. The charmer, the Adonis, the one who torched every woman's panties in our small town. He was my brother's best friend, practically part of the family. When he proposed, he promised me forever.Then the bastard disappeared without a word.It's taken five years to get over Ryan. I drowned myself crying a thousand times over. I moved on.I'm finally remembering what it's like to smile when guess who shows up. Everything about him is different. For one, he's become a freakin' billionaire. He walks like he's Mr. Tall, Dark, and Alpha incarnate. I know there's no justice in the world because his body matches his huge ego.Worse, he wants me to play Cinderella again. I can't. I won't.I don't believe in second chances. I'll never forget what he did.And if he's stupid enough to try kissing me with those unforgettable lips, he's going to feel my teeth.RYANI did a terrible thing. No, I'm not talking about the filthy secret that wrecked everything.Leaving Kara killed me. I didn't have a choice. No amount of money, success, or bedding any woman I want whenever I flash my patented smirk makes up for losing her.She was the one. Hell, she

still is. Time to remind her why. Whatever it takes to put my ring on her hand for good. I'm ready for the curses, the screams, the burn of her palm against my cheek. I'll taste her lips again, even if she bites. Just one catch - she can't find out what happened the night I left. There are no second chances if my past ruins us. This is a standalone romance novel brimming with temptation, tears, and alpha male explosions. High heat, no chill, and Happy Endings galore!
